

## Environmental Policy

County Drains Leicester Ltd. is committed to conducting its operations in a way that minimises environmental impact, prevents pollution, and complies with all applicable environmental legislation, regulations, and other requirements.

This policy supports the principles of ISO 14001:2015 and forms an integral part of the organisation's Integrated Management System (IMS). It applies to all company operations, including drainage services, CCTV inspections, maintenance activities, and administration.

We are committed to:

- Continual improvement of our environmental performance and management system.
- Preventing pollution and reducing waste generated by our operations.
- Complying with all relevant environmental laws, regulations, permits, and contractual obligations.
- Identifying and managing significant environmental aspects and impacts through regular evaluation.
- Establishing, monitoring, and reviewing environmental objectives and targets.
- Engaging employees, subcontractors, and suppliers in environmentally responsible practices.
- Considering environmental impacts when planning changes or developing new processes.
- Communicating this policy to all employees and making it available to interested parties upon request or via our website.

This policy is supported by environmental planning tools such as the Environmental Aspects Evaluation, Risk Mitigation Plan, CROO Document, and PESTLE Analysis, which are reviewed annually or upon significant change.

This policy is reviewed annually as part of the Management Review process to ensure it remains appropriate and effective.
